- ii. In addition to the entry fee listed on the entry fee schedule there will be an additional \$10 fee assessed to each Tie down Roper, Team Roper, Steer Wrestler and Breakaway roper at each ICA prime rodeo that will be accumulated throughout the season and will be added to the added money for their respective events at the finals. (2014)
 - iii. There will be an additional \$10 assessed to each Bull Rider at each prime rodeo to be added money in the Bull Riding at the Finals. (2011)
 - iv. Entry fees charged at the Finals Rodeo will be \$10 for every \$100 of added money. (1998).
- H. RODEO ENTRY BY ENTRY SYSTEM (2014)
- i. All ICA Prime rodeos will use the Entry system.
 - ii. The entry dates and times will be listed in the association newsletter and the ICA web site.
 - iii. When an online entry system is used as an option to “call in entries”, ICA members in good standing can enter the rodeos any time prior to the close of entries. If contestants choose to call their entries into the central entry office, those calls must be made only during the designated time.
 - iv. Contestants must give 2 preferences. Slack can be given as a second preference. You can also give a draw out parameter for a second preference. When using an “out” if you do not get your first preference, you will be drawn out of the rodeo.
 - v. If a contestant is drawn out, he has the option to call the entry office during the call back time to see if they can be fit into a different performance or slack. Once the designated call back period has ended, the contestant loses the guaranteed opportunity to get back into the rodeo.
 - vi. Buddy Groups: Contestants may form a buddy group of up to 4 people. (A team would include 2 of those people.) Therefore, if you have a team in your buddy group, you can only have 2 other people in the group. The buddy system guarantees you someone to travel with but there must be room for all of you in your preferred performance in order to get your preference. If there is not room for all then the entire buddy group will be drawn into a performance or slack where the entire group will fit.
 - vii. Contestants who are card holders and are entered in multiple events will receive all events in the same performance if so requested. If the same performance is not requested and the slack is immediately following a performance, then one event could be drawn in that slack, and one in the performance if

needed to balance the performance.

- viii. Contestants who are “local” or do not have an association membership will NOT be guaranteed all of their stock on the same day and will have no preference guarantee.
- ix. When the position draw for rodeos is completed the draw will be posted on the ICA website and/or the web site for central entry. It is the contestant’s responsibility to check the draw online for each rodeo he has entered to see what position he has drawn. If there is a problem, the contestant must call back during the designated call back time to resolve the issue. If the contestant fails to do so, the draw will stand. If you do not have access to the draw on the internet, then you may call back to the entry office during the designated call back time to find out when you are up. If changes need to be made, they must be done during the designated call back time that has been advertised. Because the DRAW is posted online there are no verification numbers given or necessary.
- x. After entries close, all positions are drawn randomly by the computer and sorted following the priority list outlined in Section E above
- xi. Next, going down the random lists, the contestants are set up at the rodeo according to their preference with regard to section size and number of animals available as established by contractors and committees.
- xii. Because there is no advantage to be the first one entered, you may call anytime during the entry hours convenient for you. Entering online gives no advantage to the contestant but provides added convenience to be able to enter at any time day or night 7 days a week until the entries close.
- xiii. Late entries called in after the entries close will be taken to fill performances and only for the benefit of the rodeo. No late entries will be placed in the slack unless requested by the contractor or committee.
- xiv. The entry office will make no decisions for the contestants as to the “drivability” of their performance choice.

The stock contractor is allowed to feature two animals in each performance or slack session that will be exempt from the re-rides. No features will be allowed for a performance or section with less than three contestants (2011). The remaining animals will be put in a hat and two (2) animals per performance or slack session will be drawn as the designated re-ride animals for each specific performance or slack.
- iv. Stock for re-rides must be drawn before the regular draw.
- v. The two (2) re-ride animals in each event will be given to the rodeo secretary.
- vi. If an animal runs off three consecutive times, it must be taken out of the draw.

B. Drawing Timed Event Stock

- i. Stock in the timed events shall be drawn by the Judges of that event two hours before the performance, on the rodeo grounds. (2017)
- ii. In timed events, no drawn stock can be held over from one performance to the next or overnight.
- iii. In all events, stock will not be drawn for a contestant if he has notified that he is turning out in that go-round or has been disqualified.
- iv. In timed events, stock will not be drawn except one run at a time.
- v. All cattle in the draw will be run one time before any are run a second time except when splitting horses. When due to a split performance, this procedure becomes impossible the draw will include cattle remaining that have been run the least number of times. Immediately after a split performance,

the draw will revert to the cattle that have been run the least number of times. In case of reruns, all the cattle in the draw will be run one time before being run twice, etc. Any animal drawn and not competed on shall be used for the first extra.

- vi. At enter twice Team Roping, stock may be chute run. Enter once Team Roping stock must and will be drawn.
- vii. In Tie-Down Roping, Steer Wrestling, Breakaway Roping and Team Roping the minimum number of useable and desirable cattle will be whatever the largest number in a performance plus one extra. In an event where there is 8 or less contestants then one useable and desirable animal for each contestant plus an extra. For each animal the contractor is short, there will be fines as follows: 1st offense \$50 per head short, 2nd offense \$100 per head short, 3rd offense \$200 per head short, with the fines doubling with each subsequent violation. (revised 2018)
- viii. Definition of desirable cattle is as follows: must meet with all weight and horn limitations, must be of like or similar breed. If cattle do not meet the definition of desirable and they are still placed in the draw the Stock Contractor will be fined \$50 for each animal that does not match per run.
- ix. There will be no more than 3 runs per day on a single calf or steer, and no calf or steer may run more than once in a performance, except in the case of a re-run.

C. Misdraws

- i. Definition of misdraw: Any animal which must be replaced will be considered one misdraw. Examples of possible reasons for replacing an animal are:
 - 1. Injured or unhealthy animal.
 - 2. Animal not properly numbered or distinguishable
 - 3. Animal not on premises after being drawn.
 - 4. Duplicate brand and/or ear tag and animals not distinguishable prior to draw.
 - 5. Contestant left out of draw.
 - 6. Animal drawn incorrectly due to clerical error (examples: two poker chips with the same number; contestant drawn same animal twice; wrong run)
 - 7. Misdraw procedure when discovered prior to a performance, or any time during slack:
 - 8. If four (4) or more head are misdrawn, all unused stock shall be put back in the draw box and all redrawn.
- ii. If an extra is available, all unused animals below the misdraw, up to the end of the run on the cattle are used, including the extra. One animal is drawn, that being the animal assigned to the contestant with the misdraw. If the animal drawn for the misdraw is the extra, no other changes are made. If the animal drawn had originally been drawn by another contestant, the contestant who originally had that animal will be assigned the extra.
- iii. If no extra is available, all unused animals below the misdraw, up to the end of the run on the cattle are used with the last unused animal drawn in that run designated the extra. In this instance, the last man to have originally drawn an animal in that run will require a repeat of the misdraw procedure which applies but will not be considered an additional misdraw.
- iv. Misdraw procedure when discovered after the start of a paid performance:
 - 1. If an extra is available, the contestant involved will automatically be assigned the extra, regardless of a possible difference in runs on the cattle.
 - 2. If no extra is available, the contestants involved will not compete as scheduled, but later in the performance or immediately after. A replacement animal will be drawn from all animals left in the

run.

- v. Anytime these procedures have been used to correct a misdraw and then later another misdraw is found, treat them separately. Don't lump them together to create a completely new draw. There has to be four or more misdraws at one time to create a redraw.

D. JUDGING ROUGH STOCK

- i. Ride and animal are to be marked separately. Mark the ride according to how much the rider spurs the animal. Figures used in marking the riding events shall range from (1) one to (25) twenty-five on both bucking animals and rider and use the full spread.
- ii. Judges in the riding events at all ICA rodeos will hand in their markings at end of each performance and these shall be termed official markings and these markings shall not be changed.
- iii. All markings on Judge's cards are to be made in ink.
- iv. To qualify, rider must have spur rowel over or in front of the break of the shoulders and touching horse when horse's front feet hit the ground, his initial move out of the chute.
- v. If a horse stalls coming out of the chute, either Judge shall tell rider to take his feet out of the horse's neck and first jump qualification will then be waived.
- vi. Stall is defined as when chute gate is at a ninety-degree angle and animal does not leave the chute immediately.
- vii. Rider shall be disqualified for not following Judge's instructions to take feet from neck of horse stalled in chute.
- viii. If in the opinion of the Judges, rider is fouled at the gate, at the Judge's discretion, a ride may be given or the spurring-out rule may be waived.
- ix. Contestants may pull riggings, cinch saddles, and pull ropes from either side in all riding events. Middle flank belongs to bronc rider.
- x. If an animal that is drawn in a riding event becomes sick or crippled before it is out that time, a Judge must pass on the animal's inability to be used before it can be shipped or replaced in the draw.
- xi. One Judge on the opening side of the gate shall serve as timer in the Bull Riding event. The Judge's stopwatch reading shall be used as a means of verification when the length of the qualified ride is in question. The Judge shall stop his watch when, in his opinion, the contestant has been disqualified for any reason, or when he hears the whistle or horn, whichever comes first. In any instance where the time is eight (8) or more seconds on the Judge's watch, the contestant shall be entitled to a marking without penalty.
- xii. Judges will start time when the inside shoulder breaks the plane. (2017)
- xiii. Judges are to furnish and have their own stopwatches.

E. RERIDES

- i. Rerides will be given at the discretion of a Judge. Reasons for possible rerides are as follows: if an animal stops, fouls rider, stock contractor's equipment fails, or performance of animal is inferior. Contestants may take same animal back, providing stock contractor is willing; or contestant may demand a ride animal be drawn. If contestant takes same animal back, he must take that marking. The only exception will be if contestant is fouled or there is an equipment failure.
- ii. If the pickup man or horse comes in contact with a bucking horse before qualified time has elapsed, ride can be given on the same animal, if stock contractor is not willing, ride will be the designated ride. (2017)
- iii. If ride is given, Judge shall inform contestant of his marking and an option of a ride. Contestant

may refuse rерide and take marking. Contestant must notify Judge immediately of his decision to accept or reject the option.

- iv. Contestants shall not influence the Judges by asking for rерide at any time.
- v. If an animal that runs off is already drawn for another contestant, that contestant must qualify on that animal before rерide is given.
- vi. If, in the opinion of the stock contractor and Judges, an animal needs to be taken out of the draw, the second contestant who had him drawn will automatically get the designated rерide.
- vii. If, in the opinion of the Judges, a rider makes two (2) honest efforts to get out on a chute-fighting animal and is unable to do so, they may have a rерide drawn for him.
- viii. No rерide will be given if a cowboy's own equipment breaks. If stock contractor's equipment breaks, a contestant may have a rерide.
- ix. In the case of riding-event stock injuries after the draw has been made, replacement stock should be the designated rерide for the performance the injured animal was scheduled for competition. A replacement designated rерide should be drawn immediately from notified turnouts for that performance. If there are not any turnouts, a rерide should be drawn from all available animals. At the finals, rерide animals should come from the same event they were voted for.
 - 1. (Example: A Bareback Riding horse cannot be used for saddle bronc rерide.)
- x. If a riding-event animal stops after an initial start, and any outside help is used to start it again, contestant will not be required to qualify in order to be awarded a rерide.
- xi. In the riding events, use of prods and similar devices is prohibited. The only exceptions will be in the Saddle Bronc Riding and in the Bareback Riding and only in the case of a known chute stalling animal, and only if agreed upon by the contestants, the stock contractor, and the Judge before the contestant's competition begins. Use of a prod without the agreement of the contestant, stock contractor, and the Judge before the contestant's competition begins in the Saddle Bronc and the Bareback Riding, or use of a prod in the Bull Riding at any time shall result in a fine of \$250 to the contractor of record, and the contestant will receive an automatic option of a rерide. Use of a prod in excess of 12 inches in length will result in a fine of \$100 charged to the stock contractor of record. After rерides and turnout stock have been spent, rерide animals are to be drawn from available animals as per the contractor.

- 5. The barrier equipment must be inspected by the Judge before each timed event. If equipment is faulty, it must be replaced. Should barrier break at any point other than designated breaking point, decision is up to the barrier Judge. If contestant obviously beats the barrier, but staples are pulled or barrier rope is broken, and string remains unbroken, barrier Judge may assess a ten-second (10)

penalty. Otherwise, this will not be considered a broken barrier.

6. Line Judge may assess a 10 second penalty, if he feels barrier was obviously beaten whether or not barrier works.

12. If automatic barrier fails to work and official time has not started, contestant or team will get stock back if stock is qualified on in the field.

13. If in the opinion of the line Judge, contestant is fouled by barrier, ropers shall get their calf or steer back providing contestant declares himself by pulling up immediately. If barrier is broken before contestant is fouled, contestant gets animal back lap and tap but with the ten (10) second penalty.

14. If barrier neck rope stays around the animal a rerun will be given, if the contestant declares immediately by pulling up.

15. The length of the barrier in Tie-Down Roping, Breakaway roping and Team Roping will be the length of the box less two (2) feet. Any deviations determined by type of cattle and length of arena. Set by the event director. (2017)

17. All score line lengths are to be set by the Judge and or arena director in accordance with official rodeo rules and arena conditions, unless otherwise approved at time of rodeo approval. In all cases, score line lengths of 18' or more must be approved at time of rodeo approval. Once the score line has been set it shall not be changed at that rodeo, nor shall the length of the box be changed.

18. When measuring the length of barrier ropes when rope pulls from the top of chute - this would be any time rope pulls from five (5) feet high on the chute or over - Judge should make sure flag is up and pin in place. End of barrier rope, with neck rope attached, should come to a point (24) inches behind score line and (24) inches "up" from the ground in Steer Wrestling and team roping. 3. If rope is on animal, roper will get animal lap and tap with rope on in chute.
4. Field Judge must ask contestants if they want a second loop or jump. Once a man has been flagged out, he will receive no stock back.

6. During any performance if an animal in a timed event escapes the chutes or pens before it is called for by contestant, or if automatic barrier fails to work and stock is brought back, contestant must take same animal over, during or immediately after the same performance, and that animal will be returned by the arena director and labor crew during, or at the end of that performance in the same manner, he was originally worked or brought to the pens.
7. At least several head of animals will be brought back together. No animal may be re-penned by himself. Decisions will be made by arena director about when stock is re-penned.

It is the responsibility of the general contractor to supply the box pads if the box does not meet the requirements.

vi. CHANGES IN ROPING ORDER

1. If splitting horses is necessary and contestant wishes to request a change in the performance competition order, such a request must be made to the rodeo Judges at least 1 hour before the performance. Contestants can only be moved far enough to accommodate the split of a horse.
2. In all sections of the timed events, the original position must be maintained, unless contestants are riding the same horse and their positions must be split. In such case, the first contestant drawn for a position not riding this horse will be moved up to the position to be split, unless the Judges authorize a further split because of arena conditions.
3. Neither Timers, barrier Judges, field Judges nor riding Judge may be changed during the course of the rodeo except in the case of sickness or by request of an ICA official in agreement with stock contractor and rodeo committee.

Roper must not touch calf after signaling that he is finished until after the Judge has completed his examination. Rope must remain slack until field Judge approves the tie. Unless instructed to do so by the Judge, Roper will be disqualified for removing rope from calf after signaling for time, until the tie has been passed on by the Field Judge. In the event a contestant's catch rope is off a calf after completion of the tie, the six second time period is to start when the Roper clears calf. Flag Judge must watch calf during the six second period and will stopwatch when a calf kicks free, using the time shown on the watch to determine whether calf was tied long enough to qualify. If tie becomes illegal by calf kicking, or calf gets to his feet before tie has been approved by the Judge, the Roper will be marked, "no time."

2. No Dragging of Calf. A neck rope must be used on the horse, and Contestant must adjust rope and reins in a manner that will prevent horse from dragging the calf. Contestant must receive no assistance of any kind from outside. If the horse drags the calf at least five feet, Field Judge may stop the horse. The fine for unintentionally dragging calf five feet but less than ten feet will be \$25. The fine for unintentionally dragging a calf ten feet or more shall be \$100. Intentionally dragging a calf, regardless of distance, will result in a \$250 fine for each offense, plus possible disqualification. Intentional shall be defined as caused by the Contestant.

3. Two (2) loops will be permitted catch-as-catch can and should the roper miss with both, he must retire, and no time will be allowed. Roping calf without releasing loop from hand is not permitted. If roper intends to use two (2) loops, he must carry two (2) ropes and must use second rope for second loop.

4. There will be a twenty-five second elapsed time in the Tie-Down roping. A whistle indicating no time shall be blown by the timer at the end of the 25-second span.

5. If after one go-round has been completed, fresh calf has to be used, the calf must be roped and tied before the drawing; but if extra calves have been tied at that rodeo, they will not be considered fresh.
6. The weight limit of Tie-Down Roping calves shall be no less than 200 pounds and no more than 280 pounds with fresh calves not to exceed a maximum of 260 pounds. Any deviations must be approved by the Tie-Down event director or his duly appointed designee. There can be no more than 50-pound deviation in weight from the smallest to the largest calf in a given herd. If any individual calf does not meet the requirements, the Tie-Down event director, or the appointed designee has the right to remove (prior to establishment of the "herd") that calf from the herd for the duration of the rodeo, potentially subjecting the stock contractor to fine per head for being short of the required number of cattle. Each violation of undesirable calves will be subject to a \$50 fine per head. (2017)
7. All Tie-Down calves that do not have a record of being tied down at an ICA approved rodeo within two weeks of the performance will, at the option of the Tie Down Director or his duly appointed designee, be tied down at least 2 hours prior to the start of the rodeo. The tie down of these calves will be overseen by the Judge of that rodeo, and or the Tie-Down director or his duly appointed designee. Calves tied down at a location other than the location of the rodeo will not be accepted unless approved by the Tie-Down director.
8. The length of horns on the tie down calves shall be no longer than 2 inches per side. If the stock contractor has cattle with 2" plus horns the Judges or the Tie-Down director or his duly appointed designee will have the option of removing this animal from the draw. If this results in not having the proper amount of cattle for the draw, a \$25 per head fine will be assessed to the stock contractor.

vi. STEER WRESTLING

1. Steer Wrestlers must advise the judge, which horse he will ride so that back-to-back runs may be avoided. Judges will have the authority to adjust the order to accomplish this.
2. Contestants must furnish own hazer and horses. Steer must be caught from horse. Only one hazer allowed.
3. If steer gets loose, Steer Wrestler may take no more than one step to catch steer. After catching steer, wrestler must change direction or bring steer to a stop and twist down. If steer is accidentally knocked down or thrown by wrestler putting animal's horn into the ground, it must be let up on all four feet and then thrown. Steer will be considered thrown only when it is lying flat on its side, or on its back with all four feet and head straight. Wrestler must have hand on steer when flagged. The fairness of catch and throw will be left up to the Judges, and their decision shall be final.
4. Hazer must not render any assistance to contestant while contestant is working with steer. Failure to observe rule will disqualify contestant. Contestant and hazer must use the same two horses they leave chute with. Hazer will be disqualified for jumping at steer.
5. Any cattle that have been used cannot be held over from one year to the next for use in Steer Wrestling except by event director approval (2010). All steer wrestling cattle must weigh a minimum of 450 pounds and a maximum of 600 pounds. Change upon director's approval. (2014)
6. Fresh steers added to a bunch that have been used must be bulldogged from horseback and thrown down. It is the responsibility of steer wrestlers to throw cattle at a time mutually agreed upon with the stock contractor.
7. Ten-second (10) penalty shall be assessed in any case in which a flag Judge rules that Steer Wrestler's feet touch the ground before flag line is crossed.

8. If Steer Wrestler misses or loses steer, flagman must ask if he wishes another jump. Steer Wrestler must reply at once.
9. Cattle used in previous years for steer roping, cutting and other events shall not be used for Steer Wrestling except by event director approval. (2010)
 - a. Contractors will be subject to \$100 fine per animal.
10. When fresh steers are used, any fresh steers not thrown down during competition will be thrown down at the completion of the go-round. Contestants will be responsible to throw down such steer under supervision of arena director.
11. The Steer Wrestling chute must have at least thirty inches (28") clearance inside the chute, and at the gate when in an open position. (2017)
12. Steer Wrestlers must start from the left box and the Hazer must start from the right box. (2014)
13. Field flagger is required to watch contestants and steer until animal is turned loose. Contestant is required to turn steers head so he can get up. Arena director may report infractions.
14. Hazer must be an ICA member or co-approving association member in good standing.
15. The horns on Steer Wrestling cattle must be blunted to the size of a dime. The horns must be no less than 9 inches on each side. If the stock contractor has steer-wrestling steers with horns less than 9 inches the Judges or Steer Wrestling director or his duly appointed designee would have the option of removing this animal from the draw. If this results in not having the proper number of steers for the draw, a \$25 per head fine will be assessed to the stock contractor.

vii. DALLY TEAM ROPING

1. Contestants will start from behind a barrier. In all indoor rodeos, header must start from Steer Wrestling box. Team roper behind barrier must throw first loop at head.
2. Each contestant will be allowed to carry but one rope. Roping steers without turning loose the loop will be considered no catch. Ropers must dally to stop steer.
3. Time will be taken when steer is roped, both horses facing steer in line with ropes dallied and tight. Horses front feet must be on ground and roper must be mounted when time is taken.
4. Steer must be standing up when roped by head or heels.
5. Steer must not be handled roughly at any time and ropers may be disqualified if in the opinion of the field Judge they have intentionally done so.
6. If in the opinion of the field flagger, a heel loop is thrown before the header has dallied and changed the direction of the steer, team shall be disqualified.
7. Broken rope or dropped rope will be considered no time, regardless whether time has been taken or not.
8. If steer is roped by one horn, roper is not allowed to ride up and put rope over other horn or head with hands.
9. Neither roper is allowed to remove illegal loop with hands.
10. If heeler ropes the front foot or feet in the heel loop this is a foul catch. Neither contestant may remove the front foot or feet from the loop by hand. However, should the front foot or the feet come out of the heel loop by the time the field Judge drops his flag, time will be counted.
11. In case the field flag Judge flags out a team that still legally has one or more loops coming, the Judge may give the same steer back, lap and tap, and ten (10) second penalty will be assessed for each loop already thrown.
12. Any questions as to catches in this contest will be decided by the Judges.

13. No ropes will be taken off in the arena without approval of the field flagger.
14. There will be only three legal head catches:
 - a. Around both horns.
 - b. Half a head.
 - c. Around the neck.
15. If a hondo passes over one horn and the loop over the other, catch is illegal.
16. Any heel catch behind both shoulders is legal if rope goes up heels.
17. One hind foot receives 5-second penalty.
18. If loop crosses itself in a head catch it is illegal. This does not include heel catches.
19. Heelers over the age of 50 years will be allowed to tie hard and fast.
20. Horn wraps will protect all team-roping cattle. The horns on team roping cattle shall be blunted to the size of a dime. The horns on team roping cattle will be a minimum of 8 inches on each side. If the contractor has cattle with horns less than 8 inches the Judges, team roping director, or his duly appointed designee will have the option of removing this animal from the draw. If this results in not having the proper number of steers for the draw, a \$25 per head fine will be assessed to the stock contractor.

viii. LADIES BREAKAWAY ROPING

1. Boys 12 and under can enter the Breakaway Roping at any ICA prime rodeo if eligible. Once the boy enters any other ICA event, he will no longer be eligible to compete in the breakaway. The age of the boy shall be determined as of January 1st of the current year.
2. At all ICA prime rodeos, the ICA secretary shall provide to the committee secretary, string and ribbon for the breakaway. The string shall be nylon based. Contestants MUST use the string provided.
3. There will be a twenty-second-time limit.
4. The rope must be attached to the horn in such a manner as to allow the rope to be released from the horn when the calf hits the end of the rope. This will be contestant's responsibility.
5. Catch must be clean neck catch only. Rope must draw up behind the head and ears and come tight around the neck only. Any front legs, body, band and tail will result in a no time. (2017)
6. Horns are to be no longer than 2 inches from the base of the horn. There will be a \$50 fine for each animal not in compliance.
7. The Judge will flag the contestant when the rope breaks away from the horn and time will be taken.
8. The contestant will receive no time should she break the rope away from the saddle horn by hand. However, if the rope should dally around the horn, the contestant may ride forward, un-dally the rope, and then stop her horse to make the rope breakaway.
9. Breakaway Roping director or Breakaway Roping representative specified by the director shall be allowed to cut undesirable calves from the draw prior to the first performance. The Judges must be notified before the calves are drawn and posted prior to the first performance.
10. In the Breakaway Roping, the catch pen gate will be open at all rodeos.
11. At all ICA Prime rodeos, the Breakaway Roping will be one loop.
12. All breakaway calves must be uniform in size and of like breed without the use of dairy cattle (Jerseys & Holsteins). Calves must be a minimum weight of 200 lbs. and a maximum weight of 400 lbs. with a maximum 50 lb. variation. There will be a \$50 fine per animal not in compliance.
13. At all rodeos where there are not three Judges, the Judge that is flagging the breakaway will find

an individual to watch the offside for illegal head catches. This does not have to be the same person for each performance.

14. Breakaway Roping times will be to the tenths (0.1) (2008)

15. The string shall be attached to the very end of the rope and tied securely to the saddle horn. The rope shall be tied well enough to the saddle horn, with string to allow a tug by the barrier judge or his appointee and not break. The barrier judge or his appointee may request rope to be re-tied before permitting contestant to compete.

ix. WOMEN'S BARREL RACING

1. At all ICA Prime rodeos, the Barrel Racing will not be run before any other timed events unless the ground is worked or raked prior to the other timed events. This will ensure the safety of other contestants. Barrel Racing may be run as the first event in slack.
2. There shall be 2 Judges in the barrel race. One to act as Line Flag Judge and one as Field Judge to determine any irregularities that may occur in the arena. The Judges will check each barrel once they are placed on the markers prior to the first run of a performance or slack.
3. Barrel Racing is a timed event. The starting and finish line and the position for the barrels must be marked permanently for entire rodeo.
4. The contestant is allowed a running start.
5. Anytime contestant crosses starting line, time will begin.
6. At a signal from the starter, the contestant will run to barrel 1, pass to the left of it and complete a turn around it, then run to barrel number 2, pass to the right of it, and complete a turnaround it; then run to barrel number 3, pass to the right of it and turn around it; then run to the finish line, going between barrel 1 and 2.
7. This barrel course may also be run to the left.
8. Barrel must be set back on marker if it is rocked or bumped.
9. Barrels must be set with marker in the center of the barrel.
10. There shall be no reruns given at a rodeo when a horse fall.
11. It shall be the responsibility of the flagger to ensure that the Timers are ready before allowing contestants to compete.
12. The starting gate or gates will remain the same throughout the entire rodeo.
13. A girl may ask for the arena gate to be closed, if at all possible, immediately after contestant enters the arena and kept closed until her horse is under control.
14. More than one person may ride the same horse at a performance.
15. If for any reason day monies are paid, points will count for the standings.
16. Tampering with or moving ropes used as barrel markers will disqualify contestant for the balance of that rodeo, and a fine will be levied.
17. Contestants will be disqualified for not following pattern, or not being ready to contest when name is called.
18. Each performance will be limited to 12 contestants. If the committee chooses to run more than 12 in a performance, they are responsible to rake after 12 and they will rake consistently in slack. When a rake is required, it will occur after the 12th contestant according to the draw. If a committee chooses to run less than 12 in a performance, the ground in slack must be raked after equivalent number of contestants drawn for a performance.
19. There will be no assistance to WBR horses once they are past the entrance gate. Violation of this

rule will be cause for disqualification.

20. At a 2 go-round Finals rodeo the first go-round positions will be according to the qualifier's standings and will run from top to bottom. The second go-round will be reversed.

21. No contestant will work her horse around official pattern with or without barrels. Barrels will be set no less than fifteen (15) feet off of markers. \$50 fine. (1999) No barrels are to be in the arena 2 hours prior to the start of a performance.

22. Timing Barrels

- a. Contestants will be assessed a five second penalty for knocking over a barrel. Touching barrel is permitted.
- b. Should barrel be knocked over and it sets up on opposite end, the five-second penalty will be assessed.
- c. Electric Time and Eye Beam
- d. Equipment necessary: complete electric eye timer plus one extra timing clock or stopwatch to be operated manually.
- e. Electric timer must be backed up by a flagman who will stand directly behind it in order to flag fairly.
- f. The electric eye must be set at least five feet from fence.
- g. Read out box times must be read and recorded by official timer or official Judge. One timer will record the times that appear on the electric-eye controlled readout. Electric eye times will be recorded in the 1000ths. Additional timer will operate the back-up manual clocks or stop watches and will record the time shown thereon. They will operate from the flagman's signals, and record the time in 10ths, dropping the last digits and not rounding on them.

23. Electric Timer Failure

- a. In the event of an electronic failure the contestant may take a rerun or let the manual backup time become her official time. The contestant's backup time SHOULD NOT be announced unless the contestant chooses to have the backup time as her official time. If she chooses to not take the manual backup time a rerun will be given.
- b. When the manual back up times are to be used for those electronically missed, they will be used only to 10ths, with no rounding. The remaining digits will be dropped.
- c. If the electric timer fails to work, regardless if it is the first performance, every attempt should be made to have the timer for the remaining performances.
- d. If the electric eye fails, it must fail on over 50% before handheld times are taken, the back-up recorded times will be the official times for all contestants in that go-round.
- e. If a contestant is given a rerun, her penalties from previous run will be added to her new time.
- f. rerun must be taken immediately following that section or at the end of the rodeo performance.

24. Hand Time on Barrels.

- a. Flag Judge should flag each contestant's horse's nose at the start/finish line.
- b. Once an event has begun, the line Judge must remain stationary and be alert. (Picking up hats, bats, or setting up barrels will not be allowed.)
- c. Both official and back-up Timers will time off the flag Judge. Both times will be recorded.
- d. Hand-held times will be recorded only to 10ths.

25. Reruns on Barrels

- a. Should for any reason the barrels not be placed on the markers or the flagman/timer not be in the correct place, things must be put in correct order and all contestants who ran on the incorrect course must be rerun with no penalties assessed.
- b. Judges must make decision that barrels were not on marker.
- c. Should this happen, girls and Judges should be notified, then Judge and arena director will set the time for rerun.
- d. Should the girls know that the barrels are set wrong and there is not enough time to correct it, they must RUN, in consideration of the committee. They will be rerun after the performance.
- e. Should the marker be gone, and a tape measure is to be used to set up the barrel, that is sufficient, and no rerun will be allowed.

26. Marking the Barrels

- a. Brightly colored 55-gallon steel drums with both ends in must be used.
- b. Person measuring and marking the barrel positions must give a copy of the measurements to the rodeo secretary and a timer to be kept with timing sheets.
- c. Secretary is to post a copy of the measurements, along with the times, for the contestants to see.

- e. Local and novice barrel racers can run on the ICA markers, but must run after the ICA contestants.

27. Standard courses should be used wherever possible. Pattern will be centered in arena if possible.

The standard distances for Clover Leaf Barrel Race are:

- a. 90 feet between barrel 1 and 2. (minimum of 18 feet from fence.)
- b. 105 feet between barrel 1 and 3 and between 2 and 3. (minimum of 25 feet from barrel 3 to fence.)
- c. 60 feet from barrels 1 and 2 to score line.
- d. Score line should be at least 60 feet from the end of the arena.

28. The following shall be used in smaller arenas:

- a. Barrels 1 and 2 must be a minimum of 18 feet from the side of the arena.
- b. Barrels 3 should be measured and set at least 15 feet longer than between the first and second barrels.

29. The following method of marking the barrels is satisfactory:

- a. You may use an 18-inch pointed metal stake or 12" spike with a rope attached on the head of it, covering the head of the stake and leaving only the rope on top of the ground.

30. These stakes should be buried at the locations of each barrel. Pound top of stake down to ground level then dig down around marker several inches and then pound stake down so as several inches of dirt covers head of stake, leaving only the rope above the ground.

31. Permanent markers should be put in the ground for the electric timer. Electric Timers should be placed on the score line no closer than the width of the first two barrels. Electric Timers should be centered over marker in each performance.

32. The barrels may be marked using a 300-foot measuring tape. 300 feet will cover the entire distance of a standard course (90+105+105=300). The starting line must also be correctly measured back from barrel 1 and barrel 2, so the distance is the same to ensure barrel racers going either to the right or left have the same opportunity. Permanent markers shall also be placed on both sides to indicate starting line.

x. Rough Stock Permit Events

1. Committees are encouraged to offer Rough Stock permit sections in the following events: Bareback Riding, Saddle Bronc Riding and Bull Riding.
2. Double entries will not be allowed in Rough stock permit sections unless approval has been given by ICA board and contractor.
3. If Double entries are allowed in the Rough Stock permit section, the contestant may double enter in the permit section, or once in the permit section and once in the open.
4. If Double entries are not approved in the Rough Stock permit section and a rodeo allows double entries, permit holders may enter both the Rough Stock Permit as first entry and Open section as their second entry at that rodeo.
5. Riders must have a Permit card in order to compete in Rough Stock permit sections.
6. Stock contractors are encouraged to provide stock deemed "Novice" caliber stock for the Rough Stock Permit events.
7. Entry fees for Rough Stock permit events will be \$20 in the purse. In addition, Rough Stock Permit event entries will pay the other associated fees as in other events (Finals Fund, Judges Fee, Central entry fee, and committee charge).
8. In the event that no one qualifies in a Rough Stock Permit event, the \$20 per contestant purse will be paid to the ICA and go directly into the finals fund for that event. Added money will be kept by the committee.
9. Rough stock for the Rough Stock Permit events will be drawn for as in all ICA events.
10. All Rough Stock Permit events will be governed by the ICA rulebook.
